

Twice now in a tight election season, Sinclair Broadcasting has misused the public airwaves to promote a political agenda. First when it ordered its affiliates to block the news report showing names and faces of all the fallen troops. Now it is ordering these same stations--many in political battleground states--to air an anti-Kerry info-mercial as if it were a legitimate news story...thus exempt from campaign finance law.

Please consider action against these gross misuses of our PUBLIC airwaves. Thank you for your attention.
